SOFTWARE ENGINEER

I'm looking for a challenging role in which I can apply the skills I have acquired from my work experience and education. I am most proficient in TypeScript and C++. I am also looking for a role in which team collaboration is encouraged.

TECHNICAL SKILLS

Languages : C++, TypeScript, JavaScript, HTML/CSS
Frameworks : React
Dev Tools : CLion, Git, Command Line, Atlassian Suite
Clearance : Top Secret

WORK EXPERIENCE

Software Engineer
Avarint, LLC

May 2024 – Present
Buffalo, New York

- Worked in an Agile development environment
- Collaborated with team members to finalize migrating application to a web-based architecture
- Led an integration effort with a new customer to model the customer's requirements within DIADS
- Travelled on multiple integration trips to provide on-site support for the customer

Sales Associate
Dick's Sporting Goods

Sep 2022 – May 2024
Orchard Park, New York

- Attentively listen to a customer's needs to assist in finding the best product suited for them
- Perform sales floor work, such as stocking shelves, greeting customers, and taking inventory
- Provide a quick turnaround for customer's items in for services
- Ensure customers leave satisfied and knowledgeable on the products they were assisted with

PROJECTS

School Project - Netflix Recommendations

Scala, Git

- Generated movie recommendations based on a user's current ratings of genres within movie categories
- Parsed data files containing users, ratings, movies, and genres to calculate a user's projected rating of a movie
- Estimated potential rating for recommendation to the user with 70% accuracy

School Project - Image Recognition

Tensorflow, Python, Google Colab

- Designed an image recognition system for tensorflow numbers with 73% accuracy
- Plotted Accuracy vs Actual for model comparison to the image displayed

School Project - UBRoomies

React.js, HTML/CSS, Git

- Designed and developed an interactive and modern website using **HTML, CSS, and JavaScript** in a group of 6
- Designed concept flow using **Figma** and worked closely under a Project Manager
- Optimized website for **speed and user experience** while focusing on creating an accessible UI
- **Responsive design** was a focus to ensure compatibility across all devices and platforms
- Deployed on University at Buffalo servers

EDUCATION

University at Buffalo
Bachelor of Science in Computer Science

Amherst, New York
Jan 2020 – Dec 2023
